Kevin Kao

Web Developer

📍 Taipei City, Taiwan

I am currently working at Advantech and situated in Taiwan in Asia. (+8 GMT). Willing to relocate or work remotely as a full-time React developer.

I am an aspiring React focused developer who is progress driven, efficient and responsible, always doing the most to keep code clean and maintainable by other developers while holding the deadline.

I have the ability to clearly communicate and work with backend developers in a pleasant manner.

Work Experience

August 2021 - Present

React Developer Advantech

Using GraphQL API Endpoints and related technologies such as graphql-codegen combined with React frontend and Material UI and several different node packages to create software for factories to help digitization and automation of factory production lines. Software such as maintenance and repair has intensive settings dashboards that require in-depth JavaScript knowledge as well as the ability to effectively communicate and work with backend developers. Worked in Sprints with Microsoft Azure.

July 2020 - March 2021

Frontend Developer AndroVideo

Implemented many features for the dashboard for AI Camera, learned to debug root cause and fix based on the scope of problem, maintained NodeJS backend that connected to the Android camera database, worked with GIT submodules and in-depth GIT CLI, used GitLab for CI/CD.

March 2020 - June 2020

Frontend Developer DingYi Tech

Learned to work in-depth with chrome dev tools and mainly worked on pixel perfect recreation of UIUX designs, used Vue as the main framework

November 2019 - March 2020

Frontend Web Developer UnaBiz

First job as a React developer after self studying frontend programming for three months. Created React Native and React app/settings dashboard for a partner company, KegFox. Struggled a bit as the first react job but learned a lot from real world hands on experience.

August 2018 - September 2019

IT Support Technician Software Island Taiwan

A job that mainly requires customer support along with the ability to make videos/power point presentations for partnered projects. Also worked on a Wordpress website which was the starting point for me on the road to becoming a frontend developer.

Education

	2019 - 2020		2011 - 2012

Udemy

Frontend Web Development and React

University of Illinois at Urbana-Champaign

Computer Science & Mathematics

Skills
